RECIPROCI- TY CON- DIT- IONS

The Parties shall develop, support and facilitate scientific and technological cooperation between their two countries on the basis of the principles of equality, reciprocity, and mutual benefit according to the provisions of this Agreement.

Key areas of cooperative activities

Such cooperation shall cover basic research, applied research, development works and innovation activities.

Cooperative activities under this Agreement may be carried out in the form of coordinated programs and joint research projects, joint scientific workshops, conferences and symposia; exchange of scientific and technological information and documentation, exchange of scientists, specialists; and other forms of scientific and technological cooperation as may be agreed.

Coordinated activities under the Agreement in each area with recent examples (e.g., coordinated/joint research projects, task forces, etc.)
